It occurred to me that our *College Girls* issue needed a little extra spin to make the copy more relevant to today's campus action. One could argue that 104 pages of the best-looking coeds from 30 colleges and universities would be enough to satisfy most hormonally active males. But as the new kid on the block, I decided to push the editorial envelope and introduce little pieces of collegiate data. I wanted to fill this issue with fun trivia only students knew and which never leave the campus pipeline.

§ With less than 10 days to gather information from the PAC 10, Southeastern Conference and schools from the pictorial *Student Bodies*, there was no time to do research by phone or fax. The information superhighway was the only route.

§ One chilly fall morning I fastened my seat belt, logged onto the Internet and eased into traffic. I posted a message to all interested students, requesting the low-down on campus life. What were the best courses and who were the most outrageous professors? What were the favorite hangouts for drinking, eating, dancing and all around partying? What was hot in music, movies, tv and fashion? Was there any bizarre campus lore that was passed from class to class? We requested all the material that isn't fit to publish in the college recruiting brochures.

§ Within two hours, six fact-filled messages flashed across my computer screen! Student life was traveling along the high-tech highway!

§ The information printed on the following pages cannot be described as the definitive sociological profile of college life today. It's more a random selection of fun facts and tidbits biased by those who are computer literate. Some of you will challenge the subjective observations, such as the declaration made by an Arizona student that Kippy's serves the "best damn bacon bleu-cheeseburger in town." However, the same student shared the documented fact that Earl Hindman, Wilson of *Home Improvement*, attended UA.

§ We hope you enjoy the college info that we've provided. We know you'll like the ladies. If you have any comments or complaints, we're out there cruising on the autobahn at: newstand@playboy.com :-{

DRINKING:

The Buffet Bar: They serve a drink there called "Buffalo Sweat," which is a mix of 151 rum, tequila and Jack Daniels. After they pour it, they wipe down part of the bar and squeeze the rag into the glass for extra flavor. A perfect thing to buy the birthday boy or girl in your clique. The Bay House: Good pick-up joint, lots of Sigma Nu and

AKAs. Dirbabs: the classic Greek bar. If you spend about \$500 a month there, you get a special card which allows you to bypass the line out front. How B0t.

TOPLESS BARS: TDs is a great place to take a friend for his birthday. COOL MAJORS: Forget the dolts in business.

Go for Media Arts: the only major where you can get an education AND a tan.

CLASSES: Yeah I went. As a rule, pretty unremarkable.

SOME PHRASES I OVERHEARD LAST VISIT TO DIRBABS:

"Swordlight"—a bar with a terrible guy-to-girl ratio. As in "this place is a swordlight." "Sausagefest"—see Swordlight.

buildings on campus. They used to be the main source of steam heat for the campus, but now are the domain of a secret underground, coed fraternity known as Alpha Phi Upsilon. AFU members use the passageways to hold the wildest parties on campus, which are always held after midnight so that the admin doesn't find out. The idea is to be the person to get, like, totally wasted. You haven't lived until you've partied underground at Stanford.

I'm a sophomore at Berkeley. Here's my two cents. The main hangouts are Kip's, Larry Blake's and sometimes Henry's. As for parties, the frats are good, but you have to be on a list. Best parties are at the co-ops, particularly Clayne Court, Chateau and Casa Zimbabwe. Co-ops are famous for crazy parties that usually require some sort of cover to get in. At Chateau I've heard reports of people getting naked and painting each other's bodies.

As a U of W alum I can pass along some information. As far as cool places to go, here are some I recall with pleasure:

The Blue Moon—an establishment with a long and colorful history as a counter-culture deadhead bar.

Last Exit—the place to go for tea, espresso, tarot card readings, and pretentious philosophical discussions.

Espresso Ramo—the place for the tragically hip all-in-black crowd to go for caffeine and to display their angst.

Vogue—a city club, the place to go for wild fashion, dancing, sexual ambiguity.

Re-bar—one of the friendliest bars, whatever your sexuality. You can get your drink served by a guy with a crew cut and a lovely lime green prom dress. What more can you ask for?

When the police arrived at the house, they saw no sheep in the car, but there was some straw, etc. They knocked at the house, talked to a flustered fellow at the door, went searching for the sheep. They eventually found the sheep—and the following scene—down in or next to the boiler room: several pledges, in their underwear, smeared with peanut butter, and the sheep. Some bars near campus are Little Ireland and the Amsterdam Cafe. Both are small establishments with intimate ambience. In addition, there's Denaro's, which has karaoke every Wednesday night. They even deliver. Then there's the UltraBo, which is a techno/disco

type pub. Every night they have something different, like disco, rap, techno, alternative stuff.
As for restaurants, there are several on the "strip." Touchdown's, Niffer's, Legends and Ryan's Tavern all do brisk business. There are a lot of pizza places, as you might imagine for a college town. There are all the major chains such as Domino's and Pizza Hut, but also there is a locally owned franchised place called Brand X that makes its pizza from scratch.

Favorite Hangouts for Drinking, Eating, Dancing and Music:

I. Murphy's. Since 1984, Murphy's has been the cornerstone of the rowdy partying crowd. [Inside male joke at Murphy's: If you hear above the music, listen for the common female mating call—"I'm sooo drunk!"]

II. Fred's. Murphy's is OK if you're still 18 or so, but when you get around 20, it's time to go somewhere else. Enter Fred's.

III. Sports, as it is commonly called, is for the student too wild or too young for Fred's, but too tame for Murphy's. It's the kind of drink specials. It plays the newest

dance music all night long and has a small dance floor to work off some of its \$1 shots. LSU athletes are not an uncommon sight and Shaquille O'Neal is, by far, its most famous customer during the summer.

IV. The Chimes. This place is one of my personal favorites. It has the most diverse clientele of local LSU bars. It attracts Greeks, non-Greeks,

asim and team spirit. MSU is definitely a "suitcase college;" Starkville is dead on week-ends when there are no games, so the biggest party night is usually Thursday. It starts with Happy Hour at the Cotton District Grill, then it's off to Rick's Cafe American or Mulligans. Some favorite

"alternatives" (aka grunge, new wave, skinhead, etc.), students, faculty, politicians and local newscasters. No bands, no dance floor, but great food & drinks.

One of the favorite hangouts in Huntsville is the Tip Top Cafe at 127 Maple Ave. NW. This is a real dive in one of the poorer areas of town. In fact, the first time I drove down the street to get there, I thought I was lost. You go down a little unlit street of old and decrepit houses, then you turn the corner and there it is—a broken-down place in the middle of nowhere with a gravel parking lot. It has the most atmosphere in Huntsville, as well as great out-of-town bands like Mamou, cajun rock from Louisiana, or Southern Culture on the Skids, bluegrass rock from North Carolina.

Some of the more popular bars at Chico are The Bear, LaSalles, Riley's, Red-N-Grey. There are a few clubs—one is called the Temple and the other is called the Brickworks. I've never been to the bar

scene since I'm not 21 and cannot find a good source for a fake ID.

There's live music at most of the bars and at a lot of the parties. The local music is good too. A group called Mother Hips, from what I understand, is in the process of making an album. We have a killer little

theater in town called

the Pageant. I've watched the Spike & Mike animation festival there. It's small, with two couches for the front row.

Other things to do that are sort of big up here:

-Tubing down the Sacramento River on Memorial Day Weekend.

-Halloween - The streets are cut off to traffic around 8-9 PM and the whole town is in the downtown area in costume.

-St. Patty's Day - Green beer on tap. Bars open at 4 or 6 am.

We're only a couple of hours from lots of places. Many people I know have made weekend

runs to Reno or South Lake Tahoe. We are about 4 hours to San Francisco, 1.5 hours from Sacramento. The dorms were a lot of fun at first but they get old fast. Three halls on campus and a couple off campus.

Hangouts: For dancing, the Marquee is the best, esp. on over-21 nights (not as crowded). Ground Zero has no age limit & serves "Smart Drinks" instead of alcohol. "Cloud 9" is very popular, an herbal equivalent of ecstasy. Many college students dance at Potter's and some frequent The Dark Horse, one of the grungier bars in town. The

Walnut Brewery and the Oasis cater mostly to Yuppies, though some college students hang out there too.

Cafes are VERY big in Boulder. In addition to several chains, we have the Mars cafe

Bands: The local band, Big Head Todd & the Monsters, is big in Boulder.

“ The lowdown on campus life? Hmmmm. That really depends on whose life. My life is rather interesting, if not as exciting as I would like.

Dancing? Well, I'm into ballroom dancing, and there are only a few places to do that. For modern (shake your butt) dancing, any of the clubs on or near 6th street are fine, although all the clubs seem similar to me. And the drinks are always too expensive.

The best dorm, in my opinion, is Prather Hall. It's small, so residents are afforded an unusually high amount of freedom. There is a silly rule on campus that one cannot have a member of the opposite sex spend the night, but same-sex overnight guests are allowed. In Prather, it doesn't really matter as long as one has a cool R.A. (Resident Assistant). In the words of one of my former R.A.s, 'If you've got a screamer, just ask her to be quiet or put a pillow over her face.' One wouldn't want to disturb other students.
